2. The following questions were received via e-mail and reference the Database Network Server, sample product in Attachment D to the RFP.

Q1. How many physical CPU's are you requiring and what size?
A1. Two physical CPUs with multi-core processors are required (same as Network server sample).

Q2. Are you asking for an external Raid controller?
A2. FCPS is requesting an internal Raid controller.

Q3. Under requirement j, Additional Hardware Requirement: Is this additional hardware that should be added to the server in addition to what is stated above? Please clarify Tape Drive DDS-4 tape drive (older technology). Is it internal or external?
A3. Please include Fiber Channel 8/10Gb Host Bus Adapter as in the network server example and an Integrated Management card which allows agentless management of the server. The tape drive is no longer required. FCPS backs up over the network.

Q4. Under requirement d: Operating System: Can you clarify the Solaris license requirement?
A4. This is a pricing sample only, please include OS licensing which is available as options. FCPS uses the following database software: Solaris, Linux, and Windows.

All other terms and conditions remain unchanged.
